PROFESSIONAL SUMMARY

B.Tech Computer Science student at Woxsen University with a strong foundation in software engineering, machine learning, and data-driven systems. Experienced in building and analyzing AI-based models for biomedical signal processing and predictive analytics. Proficient in Python, data structures, algorithms, and statistical modeling with a focus on designing scalable and efficient computational solutions. Passionate about developing robust software systems and applying machine learning to solve real-world problems.

EDUCATION

Woxsen University, Hyderabad, Telangana, India
Bachelor of Technology, Computer Science Engineering 2023-2027

Related Coursework: Machine Learning, Artificial and Computational Intelligence, Data Structures & Algorithms, Design & Analysis of Algorithms, Database Management Systems, Cloud Computing, Software Engineering, Operating Systems, Computer Networks, Theory of Automata, Probability and Random Variables.

CGPA: 8.61

RELEVANT EXPERIENCE

Millennium Campus Network (MCN), Boston, MA
Millennium Fellow August 2026 - Present
Main outcomes: Social Impact, Youth Leadership, SDGs, Community Engagement.

- Collaborating with global student leaders to develop and implement initiatives aligned with the UN Sustainable Development Goals (SDGs) and create meaningful community impact.

HCL Tech, Noida, Uttar Pradesh, India
Biomedical Signal Processing Intern June 2025 - July 2025
Main outcomes: Cardiac Classification, ECG Processing, CNN Model, Deep Learning.

- Designed a lightweight CNN integrating DWT + SVD with complete preprocessing and feature fusion.
- Achieving 98.35% sampling accuracy and 88.25% validated model accuracy (journal publication).

Tiaano, Chennai, Tamil Nadu, India
R&D Analyst Intern July 2024 - November 2024
Main outcomes: Experimental Research, Data Analysis, Insight Generation.

- Conducted dataset analysis using data from min 6 companies with research-driven performance evaluation.
- Delivered strategic insights adopted in implementation through detailed research reports.

PROJECTS

CampusConnect

- Campus Connect solves campus disconnect by providing a single unified platform for studying, socializing, gaming, and AI-assisted support by merging education, entertainment, and community into one app.

SKILLS

Programming: Python, C, R, LaTeX.
Tools & Frameworks: VS Code, Jupyter Notebook, Google Colab, Overleaf, Google Cloud Run, Gemini API.
Software Engineering & Backend: DSA, OOP, Node.js, SQL, Git & GitHub.
Libraries & Models: NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow, Linear/Logistic Regression, Decision Trees, Random Forest, SVM, K-Means, KNN.
Certification: Microsoft Certified: Machine Learning Operations Engineer Associate, Edge Computing (NPTEL), Google AI Professional Certificate, Machine Learning with Python, Probability & Statistics for Machine Learning & Data Science.
Language: English, Telugu, Hindi.

ACHIEVEMENTS

Forge Alumnus × Microsoft Code-a-thon - **Top 4th team.**
Agentathon 2025 - **Guinness World Record Certificate.**
Code with Kiro Hackathon - **Bonus Blog Prize Winner.**
Udhgam 2025 DigiTech Hackathon - **3rd Prize Winner.**

CONFERENCES

- Analytical and Numerical Methods in Differential Equations (Yanenko 105) Conference.
- 2025 UNC Greensboro Virtual PDE Conference.
- Symmetry2024 Conference.

RESEARCH & PUBLICATIONS

- Exploring Music Effects on Human Emotion Emerging Through EEG: A Systematic Literature Review.
- Various Methods For Plastic Waste Pyrolysis To Fuels: A Review.
- Integrating EEG Analysis to Illuminate Consumer Behavior and Optimize Marketing Strategies.

PATENT

- Patent Published on Protocol-Based System for Creation and Enforcement of a Registry-Free Relationship Between External Accounts.
